THE BUILDING

Two prismatic residential towers rise skyward from a terracotta clad podium housing 109,675 SQFT of contemporary office space – part of a mixed-use development including a boutique hotel, clubhouse and destination restaurant.

A place with soul and character on the Shoreditch and City border.

KPF is one of the most celebrated architectural firms in the world with globally-renowned buildings to its name. One Crown Place presented a new challenge. The aim was to create a place with soul and character, humanity and a rich spatial experience. By artfully combining original heritage buildings with striking modern architecture they have achieved just that, taking inspiration from the materials of the area's past, yet bringing the scheme firmly into the present.

SUMMARY

- Office podium designed with a steel framed structure and reinforced concrete core. Two residential towers with concrete frames sit above
- Design density 1 person: 8 sqm with escapes 1 person: 6 sqm
- Floor to ceiling height 2.8m, slab to slab 3.95m
- 4 pipe fan coil air conditioning system
- Raised floors 150mm (overall)
- Completing to a Category A condition with an allowance for carpets, floor boxes & blinds

LIFTS

- Office passenger lifts population densities: 1 person per 8 sqm at 80% occupancy
- Office passenger lifts handling capacity: 12% of population/5 mins (up peak)
- 5 x 1275 kg (17 person) passenger lifts
- 1 x 1600 kg (21 person) goods lift
- 2 x 1275 kg (17 person) passenger/cycle lifts for office and residential use
- 2 x 630 kg (8 person) fire fighting lifts

SERVICES

RESILIENCE

- Interlinked switchboards via 2 segregated transformers
- Standby generator capacity 1500 kVA for landlord essential, life safety and tenants loads
- Normal mains power failure scenario: all office floors small power, lighting and SER power & cooling (allowance 100 kVA per floor). This assumes:
 - 25 W/sqm small power
 - 10 W/sqm lighting
 - 11 W/sqm allowance for fan coils etc. (includes a 5 kW load allowance for an SER per tenant room)

AIR CONDITIONING

- 4 pipe fan coil system

VENTILATION

- Fresh air supply 12 l/s/person + 10%

LOADING DENSITIES FOR COOLING

- Lighting: 10 W/sqm
- Small power: 25 W/sqm
- Future tenants SER (per tenant): 3000 W
- Supplementary cooling: 5 W/sqm (main plant and risers only)

PLANT LOCATIONS

- On floor air handling plant rooms
- Level 7: boiler plant
- Level 10: cooling heat rejection plant
- Basement plant rooms: - chillers, switch rooms and water storage etc.
- Space provided for future tenants SER heat rejection units in the loading bay and on Level 10

TENANT FACILITIES

LOOS

- Based on occupancy density with a male:female ratio of 60:60 at 80% utilisation
- Cold water storage 20 litres/person/day
- Maximum water consumption of 105 litres/person/day via use of low water flow sanitary fittings

BICYCLE, SHOWER & LOCKER PROVISIONS

- 14 showers (7 male/7 female)
- 302 cycle spaces exclusive to the offices
- 302 lockers

SUSTAINABILITY

- Designed to achieve BREEAM Excellent (2014)
- High performance glazing to control solar gain and heat losse
- Energy efficient lighting
- Daylight sensors and presence detection on internal lighting
- Heat recovery on AHUs
- Variable speed, electronic controlled DC fan coil units
- Variable speed inverter controlled circulating pumps and fans
- High performance water cooled chillers
- Sub metering for energy monitoring
- Energy efficient lift installations with regeneration
- Central energy centre serving the development with combined heat and power unit
- Dog friendly

BEST OF BOTH WORLDS

One Crown Place's Eighteenth-Century Georgian terraces have been restored, soon to be home to a hotel designed by Bowler James Brindley and operated by Bespoke Hotels. 41 bedrooms and a 100-cover destination restaurant will accompany a brand-new private members' club, bringing these beloved buildings back to their former glory.
